Red brake calipers

Power liftgate

Heads-Up Display

Heated front sport seats with perforated duoleather

Apple CarPlay and Android Auto integration

All-Wheel Drive with all-terrain capability

Adaptive suspension and speed-sensing steering

Panoramic sunroof with power operation

This F-PACE is finished in Gray, a color that maintains its sophisticated appearance while remaining practical for regular use. The interior features heated front sport seats trimmed in perforated duoleather, complemented by a leather-wrapped steering wheel and leather shift knob. Power adjustments for both driver and passenger seats ensure personalized comfort, while the heated steering wheel provides welcome relief during cold weather.

The 2.0L turbocharged four-cylinder engine delivers responsive performance paired with an eight-speed automatic transmission and all-wheel drive, achieving 22 MPG city and 27 MPG highway. JaguarDrive Control grants access to multiple driving modes through Adaptive Surface Response technology, allowing you to tailor vehicle dynamics to road conditions and your driving preferences. Configurable Dynamics further refine handling characteristics, while adaptive suspension works seamlessly with speed-sensing steering for composed cornering and confident highway cruising.

Technology enhances every journey with Pivi Pro connected navigation providing real-time route optimization and traffic awareness. The premium Meridian sound system with 13 speakers delivers studio-quality audio, while Apple CarPlay and Android Auto put your smartphone's capabilities within reach. A power moonroof floods the cabin with natural light, and the Heads-Up Display projects essential information onto the windshield for minimal distraction.

Driver assistance features include a rear parking camera, auto high-beam headlights with delay-off functionality, and front fog lights for enhanced visibility. Rain-sensing wipers activate automatically, while an electronic stability control system works with four-wheel independent suspension to maintain traction and composure. Emergency communication through the Remote SOS system connects you to assistance when needed.

The power liftgate simplifies cargo access, while the split-folding rear seat adapts the interior to your needs. Remote keyless entry, HomeLink garage door transmitter, and a comprehensive security system provide convenience and peace of mind. With 10,157 miles on the odometer, this F-PACE remains well within its prime, ready to deliver years of refined driving ahead.
